A. Original

What Year Was That?

Welcome to *what year was that* game. Enter your nick name below, pick a category and start playing! For each question, type in your best guess as to in which year the given event took place. You get three tries! After each try you will be told if your guess over estimated or under estimated the correct answer and you can adjust your next guess based on this hint. You can earn up to 1000 points for each question, reduced by the amount of tries you used and by how far away your final attempt is from the correct answer. Each game session consists of 10 questions. Have fun!

N.B. At this time, if you enter the same name you used before, the points you earned during the current game session will be added to your previous score. You also wouldn't be promted with the questions you already answered. In the future, a username login system would be added to address this issue.
